

Abhishek Jha

Passionate and detail-oriented Web Developer with a Bachelor's Degree in Computer Science. Proficient in HTML, CSS, JavaScript, and ReactJS, with a strong foundation in software development concepts. Adept at creating responsive, user-centric web applications and eager to leverage technical skills and creativity to contribute to high-quality web solutions. Seeking opportunities to grow and excel in dynamic and challenging environments.

EXPERIENCE

Objectide Software Company, Gävle, Sweden – Jr. Software Engineer
04/2024 - 09/2024

- Developed and enhanced front-end features using HTML, CSS, JavaScript, and React, resulting in a 40% reduction in page load times and a 20% decrease in bounce rates, significantly improving site efficiency and user experience.
- Refined software requirements by working on user stories, increasing project efficiency by 30% through improved clarity and task prioritization.
- Contributed to Agile projects, delivering 5 major projects on schedule, which resulted in a 25% increase in client satisfaction and a 15% reduction in post-deployment issues.
- Resolved 95% of front-end issues, enhancing user experience and reducing support tickets by 30% through effective problem-solving.

PROJECTS

React Portfolio - <https://fastidious-ganache-3c9602.netlify.app/>

- This portfolio showcases my front-end development skills and projects using **ReactJS**. Fully **responsive** and optimized for various devices, it features a clean design and interactive components. It demonstrates my ability to create efficient, scalable and user-friendly web applications with a focus on high-quality user experiences.

Payment Page - EDYODA

- A payment page created for EDYODA, which serves as a payment gateway for users to enroll in online courses. This project utilizes frameworks like **Create React App** along with tools like **Figma** for UI Design. Users can conveniently choose their desired course and securely make payments through the platform.

Movie App - CineScape

- Experience the ultimate movie discovery and tracking experience with our **Vue.js** web application. Our app is built with **Node.js** the app seamlessly taps into IMDb's **API** to provide a captivating and user-friendly interface. Unleash passion for movies and discover new favorites today!
