EXPERIENCE

Grorich Tentsystems, Bengaluru — Associate Software Engineer

SEP 2022 - PRESENT

- Developed responsive and efficient user interfaces for Supply Chain Management applications using **React JS**.
- Collaborated with cross-functional teams to integrate front end components, ensuring seamless interaction with **RESTful APIs** for real-time data updates.
- Optimized application performance and maintained reusable **UI** components, adhering to Agile/Scrum processes and contributing to code reviews for quality assurance.

PROJECTS

React Portfolio

- A good way to start to know my skills and the projects developed by me. This portfolio is created with **React.js** that is fully **responsive**.

Payment Page - EDYODA

- A payment page created for EDYODA which serves as a payment gateway for users to enroll in online courses. This project utilizes frameworks like **Create React App** along with tools like **Figma** for UI Design. Users can conveniently choose their desired course and securely make payments through the platform.

Movie-app - CineScape

- Experience the ultimate movie discovery and tracking experience with our **Vue.js** web application. Our app is built with **Node.js** and seamlessly taps into IMDb's **API** to provide a captivating and user-friendly interface. Discover new favorites today !

AN EVENT MANAGEMENT PLATFORM - EventHub

- Our carefully chosen tools and frameworks enable a streamlined event planning process, ensuring a seamless experience for all. An event management website built with **WordPress**.
