SUMMARY

Results-driven Frontend Developer with over 2 years of experience building dynamic, responsive web applications. Proficient in JavaScript, TypeScript, and React, with expertise in component-based architecture and performance optimization. Demonstrated ability to collaborate with cross-functional teams, implement RESTful APIs, and uphold high standards in UI/UX and code quality.

SKILLS

- **Frontend Technologies:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, SCSS
- **UI Design & Accessibility:** CSS Grid, Flexbox, Bootstrap, Media Queries, Mobile-First Design, WCAG Compliance
- **API Integration:** RESTful APIs, GraphQL
- **Build & Optimization Tools:** Webpack, Vite
- **Version Control & Collaboration:** Git, GitHub, Docker, Agile, Scrum, Kanban, Jira, Confluence
- **Testing Frameworks:** Jest, React Testing Library

EXPERIENCE

Autovalue Systems

Associate Software Engineer

Bengaluru, Karnataka

Dec 2021 - Present

- Led frontend development for multiple high-impact projects, designing modular, reusable components with React, resulting in a 20% reduction in code duplication and maintenance time.
- Enhanced data efficiency by 25% and improved navigation flow by integrating RESTful and GraphQL APIs.
- Improved user engagement by 30% through the development of responsive, WCAG-compliant UIs using CSS Grid, Flexbox, and Tailwind.
- Optimized page load speed by 20% by implementing lazy loading, code splitting, and bundle optimization techniques with Webpack and Babel.
- Collaborated with cross-functional teams, including back-end developers and designers, to achieve cohesive project goals and deliver exceptional user experiences.

PROJECTS

E-commerce Industry – E-commerce Platform

- Built product listing and checkout pages with React, HTML, CSS, and JavaScript, improving the overall user experience by 30% through real-time updates via REST APIs.
- Applied responsive design using Flexbox and Grid to ensure seamless performance across devices and improved mobile engagement.

Retail Industry – Inventory Management System

- Developed reusable React components and enabled live stock updates via REST APIs, leading to a 20% reduction in inventory inaccuracies.
- Enhanced application reliability with TypeScript, supporting collaborative development efforts.

EDUCATION

Bachelor of Science in Computer Science

St. Joseph's College

Bengaluru, Karnataka

2021

ADDITIONAL INFORMATION

- Cleared TCS National Qualifier Test (NQT) in 2020.
- Served as an NCC Cadet (2014), demonstrating leadership and teamwork.
